gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and fraw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of dispase.

Krudwig said that several times preceding the race riots he saw Dr. L. H. Bundy, negro dentite, in Ohio, who is resisting extradiction, go to Bayles' saloon.

The prosecution is attempting to show that the automobiles of Bundy and Bayles were used on the night of July 1 to distribute arms among the negroes.

Fred Brelate a machinist, testified that on the night of July 1 he saw an armed negro crouching in the weeds. Other negroes came up, he said, and showled to a white man who lived nearby to come out. They threatened to kill him. This testimony was admitted as tending to show a conspiracy among the negroes to avenge riots in May. He identified George Roberts, one of the defendants, as the man he saw in the weeds.
